

Outrider

3 Berth Campervan

Self-Contained LDV Deliver 9 Model, Automatic Diesel

Room to stretch out and go further. The Waka Campa Outrider is our largest campervan — a fully self-contained van for up to 3 adults, with a fixed double bed at the rear, a wet room with an indoor cold shower and flush toilet, and a garage big enough for bikes and boards.

Built new in 2026 on the largest LDV Deliver 9 body, with 80L of fresh water, roof solar and a diesel heater that runs without mains power, it is made for staying off-grid for longer and travelling comfortably in the colder months.

Everything is ready to go: fridge, sink, 2 burner cooker, pot, pan, cutlery, crockery and bedding for three. Dual battery system with a solar panel on the roof, plus 230V at powered sites. Drives on a normal full car licence.

Certified self-contained to the latest New Zealand regulations, with a fixed flush toilet. The indoor shower is cold water only — a solar shower is supplied for a warm wash.

Overview

Sleeping capacity	3 Adults
Make & Age	LDV Deliver 9, 2026 Van & 2026 Build
Engine	2.0L 4 cylinder turbo diesel, rear wheel drive
Transmission	8 speed automatic
Fuel consumption	9.5L/100km official combined. Allow 10–12L/100km loaded. 80L tank, roughly 700–800km per fill.
Fuel type	Diesel only. You prepay Road User Charges at booking, then they are settled on the actual odometer at drop-off.
Licence	Full car licence, NZ or overseas. No special licence needed.
Sleeping configuration	Bed 1 (rear): fixed double bed (1.95m x 1.40m) Bed 2 (lounge): table converts to single bed (1.70m x 0.80m)

Dimensions

Overall Length	5.94m
Overall Height	3.0m incl. roof fittings
Overall Width	2.06m
Interior Height	2.00m

Features

Seat belts	3 in total, all in the driver cab, all three point belts.
Power supply	Separate starter and house batteries. The house battery charges from the 150W roof solar panel, the engine while driving and 230V mains. 230V socket inside, USB-A and USB-C outlets, 12V socket in the garage. External 230V inlet at the rear.
Kitchen	60L Dometic compressor fridge (12V / 230V), 2 burner gas stove with 2 canisters included, pot, pan, cutlery and crockery, utensils, cleaning supplies — stocked three of everything. Cupboards under the bench and a rubbish bin below.
Bathroom	Separate wet room with a fixed flush toilet and a full shower tray, drain and curtain. Indoor shower is cold water only — there is no hot water system. Cassette accessible from outside. Fully complies with the latest certified Self-Containment requirements.
Fresh Water	80L tank capacity. Garden hose quick connect filler on the driver side. Hose and connectors provided.
Greywater	80L tank capacity, one tank. Drain valve and camlock behind the driver side service door, with a 3m extension hose for dump stations.
Sink	Stainless steel kitchen sink with a pull out spray mixer that doubles as the shower head.
Air Conditioning	Driver's cab air-conditioning operates only when the engine is running.
Heating	Thermostat controlled diesel heater running off the van's own fuel tank and house battery, so you do not need a powered site to have heat.
Storage	Rear garage under the bed fits adult bikes, surfboards and hard case luggage, with light and 12V socket. Deep under sink locker, bench seat box and overhead lockers.
Comfort & tech	Bluetooth stereo, touch lights, reading lights either side of the bed, roof vent with fly screen, blackout curtain and rear door blinds. Cab touchscreen with CarPlay and Android Auto, reversing camera, lane assist, electronic park brake. Allow 3.0m of clearance under cover.
